MADE IN ITALY

Epoca presents
the new 2023 catalogue

epoca

Trust the future

Epoca loves Earth

Since 2010, we decided to give recycled plastic a second life by starting our EcoLove line, that contains a percentage of post-consumer recycled polyethylene. Now thanks to our R&D dept. we have increased the percentage of PCR to 100% on all the blow-molded parts of our renewed EcoLove line.

We believe that environmental sustainability and efficient resources management are only viable options to innovate and minimize negative impacts on the planet and on humanity.

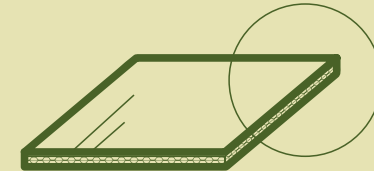

In 2020 we got our "100% Green A2A" certificate by A2A Energia, which certifies that the energy we use comes only from renewable sources.

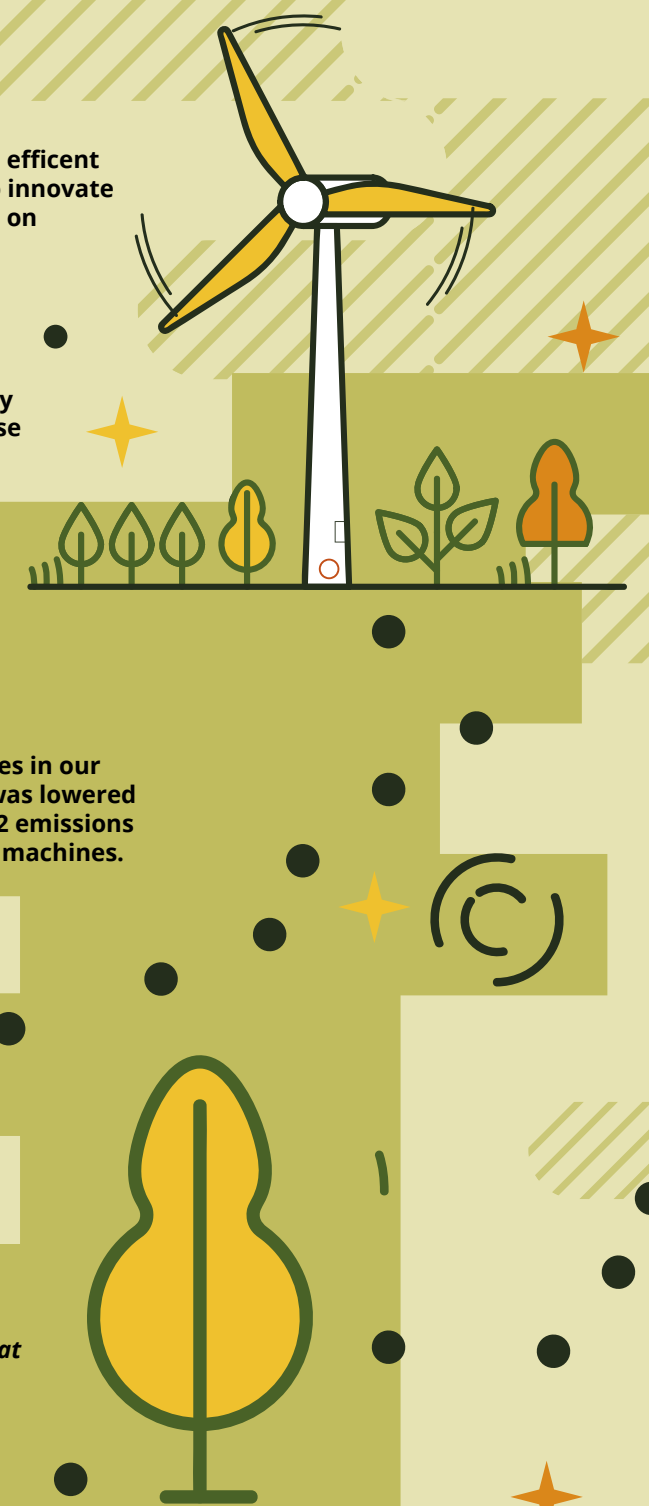

We introduced five fully electric machines in our plant. In this way energy consumption was lowered by 80% and we significantly reduced CO2 emissions as compared to the equivalent hydraulic machines.

Our catalogues are printed on recycled FSC® certified paper.

We use packaging and displays that are 100% recycled and recyclable.

BEYOND BORDERS

Epoca's history is connected to the ambition and courage to go "beyond borders".

Everything started back in 1968 in a small garage in the backyard court of Boriani family's house and numbers today are a clear sign of our success.

Epoca is a family business that grew in the last 20 years from 3,8 million € to 12,6 million € turnover, from 25 to 55 employees and from a single 4'500 m2 plant to 3 facilities, for a total of 11'000 m2.

Our growth has been possible thanks to our core values: Family, Passion, Proficiency and Flexibility.

We endured the fear of change, but the confidence of overcoming, with commitment, all the obstacles made us cross the borders of our feeling.

PROUD TO BE ITALIAN MANUFACTURERS

We seriously comply to workplace safety laws and keep in strong consideration working and life conditions of our employees.

We reinvest profit in the company in order to pursuit modernity, beauty and innovation.

Epoca's products are designed, created and produced in our company and they are now available in more than 80 countries worldwide.

We follow our customers from the first contact to the after-sales proud to offer them our assistance.

EPOCA since 1998 is certified with UNI EN ISO certification 9001:2008 CERT 03097-98-AQ-VEN-SINCERT.

Freshower

The freshness of water everywhere

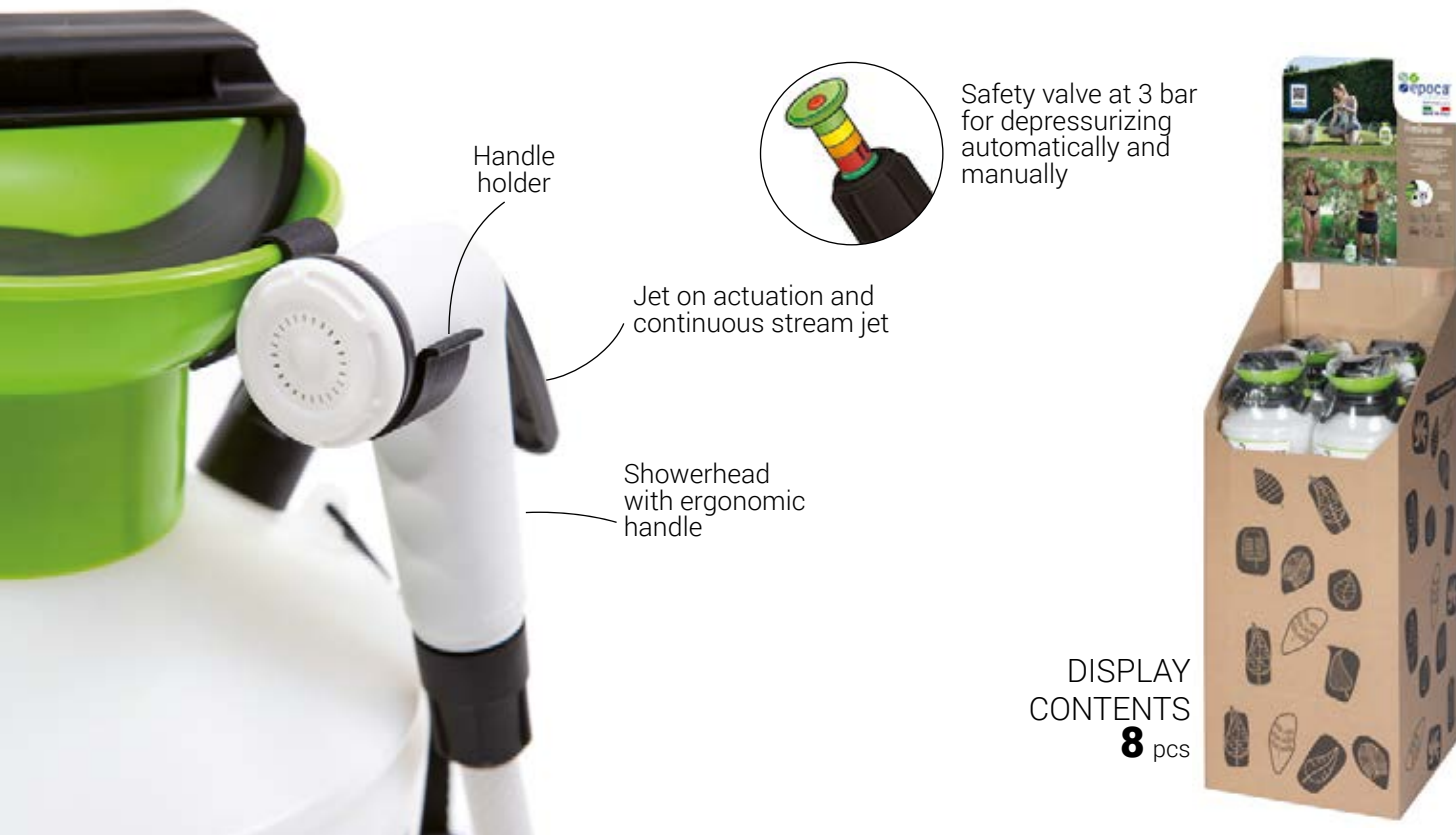

Freshower

In any place, when water is not available there is Freshower, useful and easy to use in remote locations, ideal for those who live in direct contact with nature.

Freshower allows you to refresh when the heat becomes unbearable and no restroom is available.

It can be used for washing small boats, equipment that requires rinsing with fresh water, grooming small pets, washing bikes or motorbikes.

On terraces and in garages where water is not always available.

Freshower 7

PORTABLE SHOWER

HAND TOOLS

Habitat Leaf Rakes

Habitat Leaf Rake Small

Ideal to collect leaves, small branches and dry flowers at the foot of the trees, in flowerbeds and below hedges, effortlessly. Flexible and resistant tines perfect for uneven terrain. Tines distance and flexibility prevent dirt and leaves from sticking to the rake. Registered community design features a special inclination of tines to enhance collecting capacity. Made with special wear-resistant thermoplastic resin compound. Ideal for small and medium sized areas.

cm 22 - 11 tines

Habitat Leaf Rake Medium

Ideal to collect leaves, small branches and dry flowers and to clean up the lawn effortlessly. Perfect both for a superficial cleaning and for turf scraping. Flexible and resistant tines perfect for uneven terrain. Tines distance and flexibility prevent dirt and leaves from sticking to the rake. Registered community design features a special inclination of tines to enhance collecting capacity. Made with special wear-resistant thermoplastic resin compound. Ideal for small and medium sized areas.

cm 42 - 21 tines

Habitat Leaf Rake Large

Ideal to collect leaves, small branches and dry flowers and to clean up lawns, gardens and wide courtyards effortlessly. Perfect both for a superficial cleaning and for turf scraping. Flexible and resistant tines perfect for uneven terrain. Tines distance and flexibility prevent dirt and leaves from sticking to the rake. Registered community design features a special inclination of tines to enhance collecting capacity. Made with special wear-resistant thermoplastic resin compound. Ideal for medium and large sized areas.

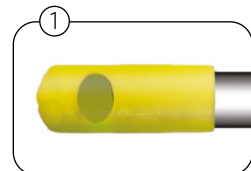

cm 52 - 25 tines

Habitat Leaf Rake Aluminium Handle

Made with lightweight and high resistance electro-welded aluminium alloy.
 1 - Its large hole allows convenient displays both in stores and in your garage at home.
 2 - Fitted with Easy-Fit quick connector. Thanks to this connector you can easily fit and change the three different rake models, ensuring a solid handling.

EPOCADECO

GARDEN PLASTIC BORDER

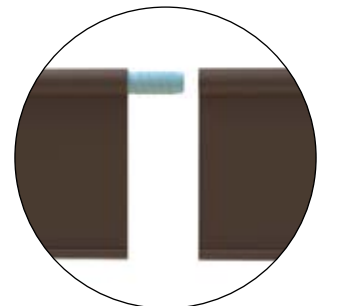

Possibility to connect to the watering supply network

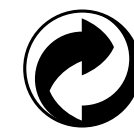

Anchoring system to secure the border to the soil

3 connectors included

modular

Made from 100% recycled PE

1 - Roll out the border in the sun for a couple of hours

2 - Size up the total length of the area to be limited

3 - Heat the border to connect the different units easily

4 - Modular system

5 - Measure the height of the border to calculate the depth of the pit

6 - Easy to shape - Great adaptability to obstacles

7 - Possibility to connect to the watering supply network

LEGEND

MATERIALS

PL	Plastic
AL	Aluminium
OT	Brass
PS	Polystyrene

O'RING GASKETS

	NBR - Nitrile Rubber Ideal with non-aggressive and water-based products.
-------------------------------------------------------------------------------------	------------------------------------------------------------------------------------

▲ Epoca always advises to carry out a complete compatibility test.

DIMENSIONS

The data reported in the "Dimensions cm" area within the product table represent: lenght x width x height.

EPOCA WANDS

* Possibility to add a supplementary extension

1 = Components of a wand

2 = Complete wand

CONNECTOR COMPATIBILITY

HANDLES, EXTENSIONS and NOZZLES can be connected one another considering that **PL** is compatible with **PL** and **BRASS** with **BRASS** only.

PACKING ICONS

	= box		= display		= PE Bag		= shrink wrap
	= maximum height 2,40 m						

Our marketing department is oriented in updating and improving new articles and new color combinations that may determine changes in shape and/or color on the products.
